

SOME PLEURISY IN RIGHT LUNG

Crisis in Case of Young Roosevelt is Expected Today.

HE IS SOME BETTER

President and Mrs. Roosevelt Feel More Cheerful Over the Outlook.

HOPE FOR RECOVERY

Groton, Feb. 11.—There is a somewhat decided improvement this morning in the condition of Theodore Roosevelt, Jr. Secretary Cortelyou announced that a little pleurisy had developed in the right lung but the temperature and respiration were more favorable than yesterday.

The crisis in the left lung, which was the first affected, has passed favorably, but the crisis in the right lung has yet to be met.

President and Mrs. Roosevelt are more cheerful this morning though they realize that the crisis has not yet passed. The crisis in the right lung is expected today. The attack has left the young sufferer in that condition which makes it impossible to say whether he will recover or not. Congestion may take place at any time.

"TEDDY" ROOSEVELT.
erish night. Most of the time he spent in talking to his mother, then he would relapse into delirium. Early this morning he fell into a restful sleep lasting two hours.

Father and Mother in Sick Room.
Mrs. Roosevelt slept in a cot by her son's side during the night, while the president remained in the home of Mr. Gardner, adjoining the school. He was joined at breakfast at the Gardner home by Mrs. Roosevelt, and in a few minutes both went to the dormitory. The visit of the father and mother seemed to brighten up the patient considerably. President and Mrs. Roosevelt were with the sick boy all the forenoon.

No plans have yet been made for the return of President Roosevelt to Washington. He can remain in Groton for ten days at least, so far as the pressure of public business is concerned.

During the day the telephone and telegraph lines to the white house were kept busy. It was thus possible for the president to transact considerable executive business of a pressing nature.

Young Roosevelt was taken ill last Thursday afternoon, so that today he entered upon his fifth day. The crisis is expected to day. All reports from the sick room show that the patient keeps up his strength and that he takes some nourishment.

Muskegon, Mich., Feb. 11.—Between Saturday night and Monday morning robbers tunneled the Muskegon Savings bank until they reached the vault. They bored a hole through its thick cement floor large enough for a boy or small man to pass through. As only \$329 in bills and old silver coins was missing, it is thought the thieves were frightened away before they could penetrate the steel doors of the inner vault, where larger sums were stored.

STILL DEBATE OLEO MEASURE

Chicago Man Makes Good Impression in His First Speech.

TELLER ON TARIFF

Colorado Senator Maintains We Have no Right to the Philippine Islands.

TURN DOWN TAWNEY

Washington, Feb. 11.—Representative Feely of Chicago made his maiden speech in the house yesterday, and acquitted himself with great credit. The oleo bill was his inspiration. There was some curiosity among the older members when he commenced, Mr. Feely enjoying the distinction of being the youngest man on the floor, and as the "baby" of the house his first steps attracted attention. He was not embarrassed, his self-possession being based upon a thorough mastery of the subject.

An the successor of "Billy" Lorimer he occupied an unenviable position, because in discussing oleomargarine legislation Mr. Lorimer was particularly strong. His best effort in congressional life was upon the Grout oleomargarine bill last session. Therefore the members who were in congress last year involuntarily compared Mr. Feely's speech with his predecessor's, and Mr. Feely suffered little by the comparison.

Representative Tawney of Minnesota, author of the oleo bill and one of the leaders in the fight for the dairy-men, attempted to confuse Mr. Feely by quoting statements he is said to have made before the committee on agriculture when it was considering a prohibitory tax against colored oleomargarine. Mr. Feely encouraged him to proceed by cunningly masking his fence. When he had Mr. Tawney in a position from which he knew he could not escape, he unmasked his battery and annihilated him.

The incident was bristling with climaxes, each being deftly turned by Mr. Feely to his benefit. Mr. Tawney realizing before it closed that he had failed.

General debate on the bill was closed yesterday. The friends of the bill have decided to offer an amendment to make the 10-cent tax apply to oleomargarine, in imitation of butter, "of any shade of yellow." The amendment is designed to meet the charge of the opponents of the bill that without this amendment the language of the bill might be construed to absolutely prohibit the sale of oleomargarine.

Throughout the entire session of the senate the Philippine tariff bill was under consideration. Mr. Turner (Wash.) concluded his speech begun last Friday on the legal and constitutional phases of the Philippine question. He held in the main that as the Philippines had established an independent government in the islands prior to the fall of Manila, the United States under the principles of international law had no right in the islands. Mr. Teller (Colo.) took the floor to deliver a speech on the pending measure, but had scarcely introduced his argument before he requested that he be allowed to continue his address to-day.

THAT BOMB WAS A BOOMERANG

Republican League is Not Buying Up Country Newspapers.

STORY IS DENIED

Sharkey, Coe, Roethe and Others Show Up Humbug of the Whole Scheme.

STATEMENT IS ISSUED

Milwaukee, Feb. 11.—H. E. Roethe and G. W. Goldsmith, editors of newspapers published in the southwestern part of the state, are represented by an organ of La Follette to have said that they received money from Van B. Starkey of the republican league to influence them in their editorial utterances.

Roethe makes an affidavit, which Starkey says is practically true, but the affidavit is in no wise a damaging document so far as the league or Starkey is concerned, for he admits in that document the money was received by him for subscriptions to his paper. Goldsmith makes an affidavit indorsing an interview with him in which he alleges that Arthur A. Meggett of the Secretary of State's office secured the right by the use of money to use editorial space in certain newspapers of Grant county.

Was a Malicious Lie.

Roethe is represented to have said that Pension Agent Coe advised him to accept money, and it is made to appear that he had done a great many things that were a discredit to a reputable newspaper man. Yesterday he wired Coe from Fennimore, Wis., saying that he is "more sorry than words can express" over the appearance of the alleged interview, every part of which is "a malicious lie."

It has been customary in this state, or it undoubtedly has been in others, for chairmen of political communities to help circulate newspapers that are friendly to the cause represented. It has been along this line that the republican league has been working, and no effort has been made by any one connected with the league in an official capacity to cover it up; in fact, the league some time ago circulated thousands of copies of a statement explaining that newspapers that were friendly to the league were being circulated at the expense of the league. The effort to show that money has been expended to purchase editorial opinion has thus far proven a flat failure.

A Legitimate Transaction.

In speaking of the matter last evening, Colonel Starkey said: "In accordance with the dirty tactics that the administration forces are pursuing, they are trying to make it appear that in this matter money was used illegitimately to influence the press of the state."

"Anybody who knows what it costs to send out literature will realize at once that through the newspapers we could reach thousands of voters at a comparatively small cost, and, though this course had never before been followed so far as we know, we concluded to send the newspapers that were friendly to us to doubtful voters instead of other matter."

"It has worked successfully, and there is not a shadow of a doubt that at this moment the sentiment of the republican voters of this state are overwhelmingly in favor of the Wisconsin republican league and its objects. No editor has been offered one cent to change his opinion, and we have been careful not to offer to circulate a paper until it had given evidence of its sympathy with us."

Claimed to Be Friendly.

"As to the papers under consideration no exception was made in their cases. Mr. Roethe and Mr. Goldsmith had both assured us and their friends that they were in sympathy with the Wisconsin republican league, and that they had had utterances in their papers showing that they were. We therefore had no reason to doubt their sincerity. Mr. Goldsmith, particularly, was loud in his professions of sympathy."

"He came to my office and volunteered to do what I should never have dreamed of asking him to do. He told me that the sentiment in his county was changing, and that he believed that in the end it would be strongly in favor of the league. He wanted to be in accord, he said, with the sentiments of his county. He was not satisfied with the course the governor had taken, and assured me he would not support him any longer."

"As to Mr. Roethe, what he says in his affidavit is practically correct, and it differs materially from the alleged interview with him. In a telegram to Mr. E. D. Coe he has repudiated all but his affidavit, with which I have no quarrel as to the facts and as to the ethics of the matter. Mr. Roethe will see it differently some day."

Goldsmith to Lose the Job.

Governor LaFollette's private secretary, Colonel Murphy, said last night that a commission as old inspector had been made out for Goldsmith last week, but that the Governor had not approved the appointment. Certainly the admissions made by Mr. Goldsmith, if discreditable to any one, are in no wise a credit to himself, and the governor's worst enemy will not believe that he would give his endorsement to something of which

he and his friends profess to have so much abhorrence.

So far as Mr. Roethe is concerned, it can be said that he is a very conscientious, respectable, and honorable gentleman, against whom never, so far as known, has there been a breath of scandal. The admissions in his affidavit are neither damaging to himself, Colonel Starkey, nor the Wisconsin republican league. He says that he received \$200 which was to be applied upon subscription account. It was the plan of the league to furnish him with the names of persons who were to receive his paper. After having thought he matter over, he returned the money, believing, he says, that if it should become known his friends would not understand the matter properly. No effort was made to buy Roethe's editorial opinions.

ELECTRIC LINE IS NEAR ROCKFORD

Through Train Between That City and Beloit Expected Soon—A College Slander Circulated.

Beloit, Wis., Feb. 11.—The shrill whistle of a C. M. & St. P. R. engine on the racks of the new electric line will be heard the latter part of this week at the south end of State street, unless the weather takes another unfavorable turn. It is almost certain that the city of Rockford will be reached by Wednesday and the construction crew will then immediately take up the work at the Clarke schoolhouse and work this way.

The frigid weather has interfered considerably with the track construction, and for some time no work was done at all. Since last Thursday the crew has been at work again and are rushing things.

Slander Is Circulated.

College people are indignant over the reports sent to certain Chicago and Milwaukee papers that students of Beloit college were addicted to the use of drugs to help them through examinations. Members of the faculty denounced the reports as vile fabrications. Because a sick student dropped a bottle of medicine out of his pocket in recitation the correspondent guessed it was whiskey and imagined the rest of his yarn. Acting President Collic said today that no friend of Beloit college took any stock in the story and that there had not been a single instance of students taking drugs to his certain knowledge. He thought it an outrage to have such a report to go out from the city of Beloit.

Beloit Gets \$5,000.

TO RAISE INSURANCE RATES.

Fire at Paterson, N. J., Bound to Have That Effect—Loss Is \$8,000,000.

New York, Feb. 11.—A general increase in the size of insurance premiums is certain to be one of the results of the big fire at Paterson, N. J., Sunday.

In the opinion of the most conservative underwriters, the Paterson conflagration will cost the fire insurance companies fully \$2,000,000 by the time all claims for losses have been settled.

Paterson, N. J., Feb. 11.—With the embers of the great fire still glowing and streams of water playing on the ruins, Paterson already is recovering from the blow, and plans for rebuilding the structures destroyed are under way. Money and securities said to amount to \$3,000,000 were recovered from the two huge vaults under the ruins of the First National bank. Books, papers, bullion and paper money were found uninjured.

The greatest tangle in city affairs will be in the tax office. So far as can be ascertained the records of the department are destroyed. The total financial loss is now put at \$3,000,000. In the hospitals are sixty-three persons, injured in the long fight against the flames. Two deaths were due to the calamity. One was that of an aged woman who fell down stairs in her anxiety to view the fire. The other was a sick woman, who died as the result of being removed from her home.

Just before daybreak the militia arrested eleven men caught looting a building.

Inscriptions Honor Votes Vaid.

Of the 2,500 defective votes cast at the recent election in New York more than half, it is said, were rendered void by inscriptions aimed at Mayor Van Wyck, such as "Anybody but him," "Not the ice candidate," and so forth. Sometimes the name and address of the voter were given.—Chicago Chronicle.

EIGHT HOURS IS A DAY'S WORK

Industrial Commission Reports For Those in Public Service.

AS TO INJUNCTION

Would Prohibit the Sale of Convict Made Goods in Foreign States.

TO BAR THE CHINESE

Washington, Feb. 11.—The third part of the industrial commission's final report was made public yesterday. It treats of labor, immigration, taxation and irrigation. Regarding labor the following recommendations are made: Congress having no power to legislate directly upon the subject it is recommended that the several states establish uniform hours of labor and also specially regulate the hours of employment of persons between the age of 14 and 21. The working day of all public employment should be eight hours. In the hope that it will bring private employment to the same standard. The period of work in underground mines should be eight hours a day. The states should adopt a law providing that labor should be paid in cash or cash orders without discount, and not in goods or due bills, and that company stores should not be allowed.

Regarding injunctions the commission says: The question of the enforcement of the labor contract by injunction or contempt in equity process is a very difficult one, mainly so made by the abuses which have arisen from injunctions carelessly issued by learned judges or by the unlearned judges of inferior courts in states which confuse chancery and common law jurisdiction. A statute to prevent intimidation at federal elections is recommended. Congress should legislate to prevent the importation and sale of convict-made goods from one state into another without the consent of the state into which the goods are imported, or where they are sold.

The recommendations of the commission on the subject of immigration are: General revision and codification of the immigration laws, including such verbal changes as are necessary to make the existing principles of legislation effective. Exclusion and deportation of anarchists. Renewal and continuance of the Chinese exclusion laws and the introduction of administrative amendments in order to render these laws less liable to evasion. A number of recommendations relative to the deportation and more careful inspection of immigrants also are made.

Regarding irrigation the commission recommends that congress enact laws: To provide for national control of sources of water supply upon which two or more states may depend for irrigation. To provide for further comprehensive surveys of the arid lands of the United States and for an immediate estimate of the water supply available for reclamation thereof; for the construction of storage reservoirs and irrigation works by which to utilize the water supply of the arid regions to the greatest possible extent.

In conclusion the commission urges legislation to provide for beginning the construction of one or more large reservoirs or diversion works where the results of surveys and examination have shown that vacant public lands can be reclaimed.

RULES OF WAR WERE VIOLATED

Court Opinion Frees 200 Military Prisoners—Regulars no Control Over Volunteers.

St. Louis, Mo., Feb. 11.—Two hundred military prisoners now confined at the Fort Leavenworth and other military prisons in the United States will be set at liberty by a decision handed down by the United States Court of Appeals today. The decision was in the case of Peter C. Deming, a former captain of United States volunteers, against Robert W. McClaughey, warden of the federal penitentiary at Fort Leavenworth. Deming was imprisoned on a sentence of a court-martial composed of nine regular army officers, convened by General W. R. Shafter on March 29, 1900.

The opinion of the circuit court, written by Judge Walter S. Sanborn, is that the court-martial which sentenced Deming acted in violation of article 77 of the articles of war, which provides that officers of the regular army shall not be competent to sit on court-martial for the trial of officers and soldiers of other forces. The essential question, as stated by Judge Sanborn, is whether the volunteer army is the same as the regular army or whether it is one of the "other forces" mentioned in article 77. The opinion establishes the fact that the volunteer army is at all times distinct from the regular army.

FOR SINGERS AND SPEAKERS.

The New Remedy For Catarrh is Very Valuable.

A Grand Rapids gentleman who represents a prominent manufacturing concern and travels through central and southern Michigan, relates the following regarding the new catarrh cure, he says:

"After suffering from catarrh of the head, throat and stomach for several years, I heard of Stuart's Catarrh Tablets quite accidentally and he every-thing else. I immediately bought a package and was decidedly surprised at the immediate relief it afforded me and still more to find a complete cure after several weeks' use."

"I have a little son who sings in a boys' choir in one of our prominent churches, and he is greatly troubled with hoarseness and throat weakness and on my return home from a trip I gave him a few of the tablets one Sunday morning when he had complained of hoarseness. He was delighted with their effect, removing all huskiness in a few minutes and making the voice clear and strong."

"As the tablets are very pleasant to the taste, I had no difficulty in persuading him to use them regularly."

"Our family physician told us they were an antiseptic preparation of uncounted merit and that he himself had no hesitation in using and recommending Stuart's Catarrh Tablets for any form of catarrh."

"I have since met many public speakers and professional singers who used them constantly. A prominent Detroit lawyer told me that Stuart's Catarrh Tablets kept the throat in fine shape during the most trying weather, and that he had long since discarded the use of cheap lozenges and troches on the advice of his physician that they contained too much toxic potash and opium as to render their use a danger to health."

"Stuart's Catarrh Tablets are large, pleasant tasting lozenges composed of catarrhal antiseptics, like Red Gum, Blood Root, etc., and sold by druggists everywhere at 50c for full treatment."

"They act upon the blood and mucous membrane and their composition and remarkable success has won the approval of physicians, as well as thousands of sufferers from nasal catarrh, throat troubles and catarrh of stomach."

"A little book on treatment of catarrh mailed free by addressing F. A. Stuart, Co., Marshall, Mich."

When you want a physis that is mild and gentle, easy to take and pleasant in effect use Chamberlain's Stomach and Liver Tablets. Price 25 cents. Samples free. Every box guaranteed. For sale by Peoples' Drug Store and Kings' Pharmacy.

ST. PAUL DISPUTE HAS BEEN SETTLED

Council Allows Them Another Track Across Prospect Ave.—Meeting Last Night.

On account of having to know at once, before the supreme court met, what the Chicago, Milwaukee and St. Paul railroad proposed to do, in regard to the dismissal of the suit of the city against the road for crossing Prospect avenue as ordered by the council some time ago, a special meeting for general business was called last night.

When the suit was ordered dismissed by the council, City Attorney Burpee, in order to protect the city's interests and to fix matters so that the action should not be used as a precedent for further track laying, drew up a stipulation to cover it. The road refused to sign this stipulation for a long time.

The finally decided, that, if the city would grant them permission to put another track across Prospect avenue they would sign the stipulation. The matter was settled on this basis and the road will put in another track across the street to run up to A. N. Jones' warehouse.

Mayor Richardson presided at the meeting and Alderman Gilkey, Valentine, Judd, Kothman, Murray, McLean and Hutchinson were present. The clerk read the minutes of the meetings for December 23, 1901, Jan. 6, 1902; Jan. 20 and Feb. 3rd, 1902, which were adopted as read.

The report of the city treasurer and the municipal court, for the month of January were received and referred to their respective committees and were later received and placed on file.

The application of John Karberg for a building permit and report of the chief engineer of the fire department were referred to the fire and water committee, who asked for more time to report.

Ald. Gilkey, from the finance committee reported favorably on a batch of bills and the same were ordered paid. Two Thousand dollars was also ordered transferred from the Court Street special assessment fund to the general fund.

The report of the export, hired to go over the city treasurer's books last summer was adopted.

Ald. Valentine reported that Mr. Gunn, had been erroneously assessed on \$5,000, personal property, in 1901, and introduced an order for the clerk to cancel the assessment.

Ald. McLean reported that the police committee, to whom the curfew law was referred, were considering the matter seriously and would be ready to report at the next regular meeting.

The matter of the St. Paul Switch track across Prospect Avenue, was taken up. Ald. Valentine stated the highway committee had consulted with the attorneys of the road, in regard to allowing them to put another track across the avenue between the other tracks, and had reached an agreement with them. He therefore introduced an order allowing them to lay the track which was adopted.

Alderman Hutchinson introduced an order that the city purchase from Elizabeth Gokey, a strip of land 33 feet wide at \$300 for purposes of extending Galena street to the viaduct across the Northwestern tracks.

William Carroll was granted a rebate of 35 cents for taxes on personal property not owned by him.

A Nervous Woman

Will often feel compelled to stop the clock whose ticking seems unbearable to her. In such a nervous condition the woman needs a building up of the entire system. It is useless to attempt the cure of the nerves while the cause of the nervousness remains uncured. A very common cause of nervousness in women is a diseased condition of the delicate womanly organism. Dr. Pierce's Favorite Prescription cures womanly diseases and the nervousness which they cause. It changes irregularity to regularity, dries the drains which weaken women, heals inflammation and ulceration and cures female weakness. It is a perfect tonic and nerve, tranquilizing the nerves, promoting the appetite and inducing refreshing sleep.

ROORBACK NUMBER ONE

The present state campaign so far as the republican party is concerned promises to be intensely bitter. The supporters of the administration, and especially the press, do not hesitate to malign and abuse the opposition, and in their spasmodic efforts, all sorts of real or imaginary grievances are heralded.

The right of the conservative element of the party to organize and maintain a republican league, was not only questioned, but vigorously denounced. The league has been ridiculed and burlesqued, and every prominent man connected with it has been made a target for personal abuse. The president was criticised for honoring the state with a cabinet position and Senator Spooner, has not escaped the vindictive spirit that seemed to have full control.

In spite of all opposition of this sort, the conservative organization has rapidly gained in strength. The money for necessary expenses, has been freely contributed by men who have the best interests of the party at heart, a leader has been selected, who commands confidence and who is in sympathy with the principles involved, and the organization begins to be formidable.

The opposition has discovered that a strong tide of public sentiment was against them, and after exhausting every effort, it now falls back on the old roorback method. Number one has just been issued. It sets forth in detail, that representatives of the republican league, with large rolls of money, have been traveling over portions of the state, attempting to buy the county press, at prices varying from \$10 to \$200. The names of a few men are given, who possessed the hardihood to resist the subtle temptation. One man was offered \$40 to send his paper for a year to 40 new subscribers, but his conscience would not tolerate such an increase of business in a single day.

The roorback attempts to prove that the league attempted to subsidize the rural press. What are the facts in the case? Simply these; the campaign is to be a campaign of education. The league as well as the opposition, will send out frequently, literature that the people of the state are interested in. It will contain on both sides, arguments on taxation and other questions of interest. The county press will be asked to distribute this campaign literature in its local field. The league is willing to pay the county press for this kind of work in localities where it would not be done voluntarily, and asks as an equivalent that for every dollar invested, the paper be mailed for a year to a new subscriber. The much discussed editorial matter sent out by the league, is expression of opinion from various papers about the state, and when copied, is credited to the paper where it belongs. The paper that copies, may agree with the sentiment expressed, or may not, his own expression of opinion on his editorial page, if he has one, determines where he stands. If a man can be bought for \$40 or \$200, he is altogether too cheap to be of value to any party.

The league is using legitimate means, to circulate literature. It is spending money that belongs to the organization. It has no bureau at the state capitol, and is not assisted by state employees at the tax payers expense. Its methods are open and it has nothing to conceal. Unlike the opposition, it is not in a desperate condition, and every day the outlook for success of conservative republicanism brightens. Number two next.

THE PRESBYTERIAN INFANT. It is gratifying to know that the ban has been removed from the Presbyterian infant, and that the accident of birth is no longer a menace. Not that the recent ruling of the church effects in any way the destiny of the army of little cherubs that for generations have been engaged in tuning golden harps, and chanting heavenly melodies, for an all wise Father who was responsible for their creation, is too thoughtful to permit them to suffer neglect. But the mothers who have tried in vain to believe a doctrine which was unnatural and repulsive, are no longer subscribing to a creed, which they could not endorse. The old Blue Laws of New England were wholesome, and whatever ruggedness of character the nation retains today, is largely due to the discipline of the forefathers, and yet as time advances, and intelligence develops, the interpretation of truth takes on new and broader significance. It is not a matter of surprise that churches here and there discard some of the old dogmas, that in earlier history were considered vital.

The Presbyterian church stands for dignity and conservatism. It is never disturbed by emotion, or carried away by fanaticism. The religious fads of the age that make such inroads in many churches, never gain a foothold in this substantial organization. Her constituency is liberally tinged with Scotch blood, noted for honesty and loyalty. Because

of these distinguishing qualities, the church has been slow to discard from her creed any forms that it contained, however obsolete they might be. And so this infant damnation, which has long been a dead letter, has been permitted to remain. The committee should have gone one step farther, and abolished the predestination plank, and then the creed would have been inviting to all seekers.

The church is to be congratulated. If some of the others will follow suit by a little wholesome pruning of the same sort, the doors will be more inviting. The age no longer recognizes the church, as the conscience for the individual, and people are slow to subscribe to creeds that are arbitrary, though they may be old and ineffective from misuse.

MODERN PHILANTHROPY

Thomas Byrne of Chicago, was the owner of a large tenement building that was destroyed by fire last week. The tenants barely escaped with their lives, and many of them were destitute. Mr. Byrne, with a heart that stamps him as one of God's great noblemen, came to the relief of the sufferers, by wisely distributing \$4,700 among them, for clothing and furniture, to put them on their feet. The money came as a great surprise to the unfortunate people, but was never the less appreciated and Mr. Byrne's name, will long live as a bright spot in their history.

It is well for humanity that philanthropy is not confined to the Carnegies and Rockefellers, but that every now and then, from some obscure quarter, a generous hearted soul comes to the front and blesses his fellow men.

The race of whole-souled millionaires is limited, but there is an army of Byrnes scattered up and down the earth. Men and women who are large enough to forget self and lend an ear and a helping hand to the unfortunate.

The Oleo bill still hangs fire in the house, with chances about evenly divided on its passage. Congress will do well to remember, that the great army of people who are obliged to use it, are not represented in opposition, but are the most important factors nevertheless, whose interests should not be overlooked.

Germany does not take very kindly to Christian Science, which is called in that country Eddyism. If they imagine that Eddyism is startling, they should have a little taste of Chicago Dowelism. The new Zion would not very likely to thrive on German soil.

While Admiral Schley is patiently waiting for the decision of the President, as the highest court in the land, he will be consoled by the fact that he already enjoys the approval of public opinion, and that is a court of some significance.

If the wood chuck will make another tour of investigation, it might effect the price of coal. February is a short month, but it has been full of business so far. The coal dealers are correspondingly happy, but the most of us are not in the coal business.

If the President's son recovers, he will doubtless profit by experience. The management of the college may also be reminded that a little authority in dealing with boys, is not only wholesome, but sometimes necessary to good health.

With a ten million dollar fire at Paterson, N. J., added to the two million at Waterbury, Conn., the new year is not very profitable for insurance Companies.

PRESS COMMENT.

Baraboo Republican: If the European countries continue falling over each other trying to show how friendly they were to us during the Spanish-American war, we will not be surprised to see a report that Dewey and Montejó went in together to sink the litters fleet.

Millwaukee Sentinel: Possibly it was thought best to vaccinate the Wisconsin board of pharmacy with the virus of politics in order that it may escape the disease in its worst form.

Millwaukee Journal: It is just as well to keep in memory the fact that a mere increase of taxation is not reform and that no matter how much the corporations pay under the present system, the people will have to pay just as much.

Beloit Free Press: Congressmen Babcock, of Wisconsin, and Tawney of Minnesota, voted with the Democratic members of the ways and means committee to reduce the tariff on the steel schedule and to place some articles on the free list. If these congressmen could have their way, a great many steel industries not in the steel combine would be forced out of business.

Ellsworth Herald: A combination which can distribute a quarter of a million of personal letters in one campaign and which has influence enough with railroads to charter a train for a nominal amount and parade up and down the state doing the spectacular well deserve the name of "machine."

La Crosse Rep. and Leader: Spain is said to still hold 40 Porto Rican political prisoners, and the Porto Ricans want to know why they are not liberated. The question is pertinent, and President Roosevelt will doubtless see that Spain so regards it.

looks as if there were a number of countries that would like to make alliances with this country against some of their European neighbors.

There is a stalwartism about the republicans of Eau Claire, which glories in speaking right out in meeting. They are not only signing the Whitehead call by the thousands, but the local papers are printing great lists of the persons who are proud of the distinction.—Hudson Times-Star.

Oshkosh Northwestern: Even war taxes are preferable to an empty treasury and a growing deficit and congress should be extremely careful not to increase expenses while at the same time planning to cut down the revenues of the government.

WHITEHEAD AND RAILROADS.

If any populist tells you that John M. Whitehead is sacrificing any of his opinions as a reformer, or that he is trying to defend the railroads against the interests or to the disadvantage of the farmer and others, show him the following excerpt from the address he made before the Six O'clock Club at Madison:

"The state aims at justice to the railroads. Nothing else is contemplated and nothing else is asked for by the people. The railroads, I think, would serve their own interests by lending their influence to the establishment of such commissions in the state in whose jurisdiction they are and by such co-operation with the taxing authorities of the state to which they owe allegiance, they would perform a patriotic duty, and at the same time secure all the economic and business advantage to which they are entitled."

The state of Wisconsin has been generous and it has been just in its efforts to deal with corporations so that they might be encouraged to carry on their business and develop the resources of our state. Nothing else whatever, I am sure, is likely to be contemplated; certainly not if the corporations reciprocate and assist the Legislature in discovering a just basis upon which to make a just assessment and a just distribution of the burdens of our taxation."

The tax question is an economic question, and should be dealt with accordingly. We should try to remove prejudice from our minds and try to promote the general welfare. Senator Whitehead wants the corporations to pay their full share of taxes and if he is nominated and elected governor we believe he will be able to secure their assistance in untangling a problem that a populist would never solve.—Wausau Record.

NOTHING IN IT.

Has a man got to be a beer drinker to be eligible to the office of governor of the state? Does a total abstainer stand no chance of election to high political office in Wisconsin? Well, that is the way the papers talk.—Lodi Valley News.

As long as you and we have strength to hold a pen, Uncle Peter, the above infamous propositions shall never go unrefuted. The writer came from a state where generations of men of power, influence, holding the highest positions, live and die without knowing what a glass of beer tastes like. But don't worry. Brains, self-control, power, do not need credentials nor bolstering up. They compel recognition. They need not press for place. Men of less quality come meekly and offer the high prizes. Whitehead is an example.—Madison Journal.

MAMIE WEARS A RAGLAN.

Mamie wears a raglan—O, dear! Mamie in her raglan is a sight to see! For the way that Mamie wears it, and the way she twists and bends it, makes it hard to tell just where the raglan and Mamie end! Mamie wouldn't wear a coffee sack, of that I'm sure. Mamie likes to be in style and Mamie is demure. Yet Mamie doesn't hesitate to amble up the street Looking like a bale of hay that's grown a pair of feet. And sometimes when you see her, you take another peep. She looks as much as if she were a walking in her sleep! Cincinnati Commercial-Tribune.

COMMENDABLE.

The United States senate, after a brief discussion Tuesday, passed a bill providing for a 25 per cent. increase in the salaries of federal judges. The increase is quite proper we believe. Heretofore their salaries have not exceeded one-quarter of what similar officials receive in Great Britain and some other foreign countries. They have certainly been too low to attract men of first rate ability not possessed of independent fortunes, and it is highly desirable that this class should be well represented on the federal bench.—Appleton Post.

COUNTRY MUSIC CRITICISM.

Kubelik, the violinist, made \$22,000 by four concerts in Chicago, breaking the auditorium record. Verily, the world is mad. Think of it! Paying \$2,500 a night to see a boy drawing the tail of a dead horse across the bowels of a dead cat!—Genesee News.

What's the Matter With Emil? Who should step from the noon train east the other day but Emil R. Meeske. He was instantly surrounded by an enthusiastic multitude. His arm was nearly wrung off. One man tried to kiss him, but Emil waved him away. Emil is true to his wife. He is looking just as natural as a dark bay sausage.—Genesee News.

The regular meeting of Florence Camp, No. 36, M. W. of A. was held last evening at the West Side Odd Fellows hall. The question of their picnic in 1903 came up for consideration and the following delegates were elected to attend the picnic convention at Rockford, March 19th. F. P. Starr, T. L. Mason and S. Fisher. The delegates were instructed to use their best efforts to secure the picnic for Janesville in 1903. The picnic for 1902 will be held at Rockford, Ill., on a date to be fixed by the convention, at its meeting on March 19. The Woodmen's picnic has come to be a great annual event and means a great deal to the town securing it. It is hoped that the committee may be successful in securing it for Janesville in 1903.

Preliminary steps toward the adjustment of the loss on the Marzluft factory are being taken. John McClure, special agent for the St. Paul Fire and Marine Insurance company; L. S. Tuttle of the Queen Insurance Co., Mr. Green of Chicago; with Wisconsin adjusters are here and ready to go to work, but await the coming of E. V. Munn, of New York. Upon his arrival the active work of adjustment will begin.

One on the Bishop.

Among the many good stories told of the new bishop of London is the following: One day, in the East End, he noticed a dirty little urchin playing beside the gutter. "Hello, my little man," said the bishop, who is very fond of children, "what are you doing here?" "Making a kerfendral," was the reply. "A cathedral," exclaimed his lordship, "but where's the bishop?" Dr. Ingram's sense of humor, always keen, was quite overcome when the small boy answered, "Please, sir, I ain't got dirt enough to make a bishop."

LENTEN SEASON IS ON TOMORROW

Forty Days of Abstinence
and Sacrifice of Pleas-
ure and Meat.

IN THE CHURCHES

Society Will Have a Rest
From Pink Teas, Recep-
tions and Dances.

THE CARDINAL VIRTUE

Beginning tomorrow, Ash Wednes-
day in this church calendar, the Len-
ten season of penitence begins. For
forty days the communicants of the
Episcopal and Catholic churches make
some effort to observe the self sacrifi-
ces laid down in the canons and give
some thought to the three graces of
faith, hope and charity.

Social pleasures are abated, if not
wholly given up, and some one special
pleasure is discarded for the time
being. If the theater is looked up-
on with extraordinary favor, then the
pleasure of a dramatic performance is
dropped from the list of events for the
period of Lent; if one is especially
addicted to the consumption of bon-
bons, the daily box of chocolates and
sweetmeats is forgone; if cards or
the dance has been one's chief diver-
sion, they are abandoned for a while,
and, in fact, whatever the allure-
ment, be it only some favorite dish,
it is proper to discipline the soul by
cutting it out from the daily expecta-
tion and enjoyment.

As a fact Lent comes with a two-
fold pleasure to the satiated society man
and woman. They are glad to rest
from the ceaseless round of pleasure
that begins in October, and they are
only too glad to obtain a surcease
from the drain on their pocketbooks.
Moreover, the church expects and in-
variably obtains at this season a large
addition to its revenues.

During the next forty days the good
churchman has constantly the card-
inal virtue of charity held up to his re-
membrance. The home mission, the
building fund, the needs of foreign
missions, and the deficiencies of the
income of the church itself, are all
pressed upon him.

The Lenten season is the time when
he is asked to forego the call of the
world, the flesh and the devil and pay
some attention to the Christian vir-
tues. He is asked to battle against
anger, pride, gluttony, lust, covet-
ousness, envy and sloth, and in their
places practice in the degree that his
nature may permit, humbleness, hu-
mility, abstinence, liberality, brother-
ly love and activity in well doing.

All the Episcopal churches will have
a series of special services to incul-
cate the practice of these qualities of
mind and heart. Throughout the
Lenten period daily and on some days
hourly services will be the rule.

In the Roman Catholic churches
the season will be observed by early
masses from 5:30 o'clock in the morn-
ing to 10 a. m. and in the afternoons
and evenings on holy days.

ADAM S. WILSON HAS PASSED AWAY

One of the Oldest and Best Known
Residents of Rock County—
Came Here in 1854.

After several weeks of suffering
death came to the relief of Adam S.
Wilson, one of the oldest and best
known residents of this city. For
several weeks he has been failing
rapidly and it was only a question of
time with him. Three years ago he
had a severe attack of bronchial trou-
ble and about a year ago was attack-
ed by dropsy which was the imme-
diate cause of his death last evening.

Deceased was born at Stanford,
Canada, Aug. 12, 1823. When twenty-
one years of age he went to Troy,
N. Y., to reside. December 1, 1851,
Mr. Wilson came to this city to reside
and engaged in the carriage and
blacksmith business, until failing
health compelled him to retire. He
had friends without number in this
city who will be pained to hear of his
death. His wife died some five
years ago. He left surviving him
two daughters, Sarah and Mary, of
this city and three sons, William of
Le Mars, Ia., and George and Frank
of Sioux City, Ia.

BELLE OF NEW YORK AT GRAND TONIGHT

The original Shaftesbury Theater, London, and New York Casino production of "The Belle of New York" will be the attraction at the Myers Grand on tomorrow night. This organization is the same which was seen in all the big cities last season and is now making its fourth annual triumphal tour of the principal cities in this country from coast to coast. The costumes this season is said to be even more superb than ever before; made from the designs of Europe's most clever artists and designers. "The Belle" is by far the brightest of the Casino's long list of successes and its action gives opportunities for the introduction of a large chorus and ballets of exceeding beauty. Manager Schubert has selected his chorus this season from the fairest of all those at the Casino, including the famous ballet of the London production. The part of the Elder Bronson is again played by Mr. E. J. Connelley and the entire company of principals has been kept intact as seen last season.

DEATH FOR ANARCHISTS.

Persons Killing or Attempting to Kill High Officials to Get Full Penalty.
Washington, Feb. 11.—Senator Hoar, from the committee on judiciary, yesterday favorably reported a bill for the protection of the President of the United States, the Vice President and others. It provides that any person who shall wilfully kill or cause the death of the President, Vice President or any officials in line of succession or who shall wilfully cause the death of the sovereign or chief magistrate of any foreign country, shall be punished with death. An attempt to commit the offenses is also punishable by death. The bill also provides a punishment of twenty years for persons found guilty of counseling the killing of any of the persons named. Imprisonment of five years is provided for persons convicted of uttering words which threaten to kill or advise another to kill the persons named. The Secretary of War is authorized and directed to select a detail from the regular army to guard and protect the person of the President, "without unnecessary display."

Cost of the Navy.
Washington, Feb. 11.—The new navy has cost the United States \$39,893,923 for construction and \$9,343,235 for repairs on completed vessels. These figures are supplied in a statement forwarded to the Senate yesterday by the Secretary of the Navy in response to a resolution adopted by the Senate in February, 1901, and is the result of the labors of a number of Navy Department employees for the past year.

Will Probe Complaints.
Washington, Feb. 11.—Secretary Shaw has decided to investigate the charges that have been made against the inspectors of baggage at the New York docks. These charges are in the nature of complaints, and allege insubordination, incompetence and general unfitness of the inspectors for the duties they are called upon to perform.

Would Succeed Senator Vest.
Washington, Feb. 11.—Judge De Armond of Missouri has announced himself as a candidate for United States senator to succeed Senator George D. Vest, who is considering his retirement on account of ill health.

The Kohinoor Club
The Kohinoor club was entertained

last evening at the home of Miss Nellie Cox, the hostesses being Miss Cox and Miss Agnes McNeill. It was a St. Valentine's event. The tables and rooms were trimmed with hearts cut of pink and green paper and card board. Each table was supplied with a score card, heart shaped, the green ones representing the gentlemen partners and the pink the ladies. After the games the members were invited to partake of a most elaborate luncheon, each one being provided with a heart shaped valentine card, on the back of which a "heart" breaking menu was printed.

At the card playing the prizes were won by Magdalena Knapsheld and Agnes Cox, first; Anna McKimney and Anna Knapsheld, consolations.

Delightful Entertainment
The recital given by the Gamble musical organization at the Y. M. C. A. hall last evening was certainly one of the most delightful presentations ever seen or heard in this city and reflects credit on the managers of the Y. M. C. A. lecture course. The artists engaged were Ernest Gamble, basso; Miss Grace C. Jenkins, violinists, and Frederick B. Morely, pianist.

These people are all artists of the first-class and they astounded and delighted a packed house. Mr. Gamble was especially good and his rendition of classical and popular songs was a treat. A pleasant remembrance of the occasion will dwell long in the memory of those who were present.

Christian Young People
The executive committee of the Christian Young People's union held a meeting last night which included a banquet. It was decided to hold these meetings every month. Miss Mabel Best was appointed chairman of the committee to arrange the banquet; Dr. F. P. Richards, chairman of the good citizenship committee, and Miss Ada Fenton, chairman of the constitution committee.

Grocery Clerks' Masquerade
The local grocery clerks enjoyed a good time at Assembly hall last evening with their masquerade. The maskers numbered over 200 and there were some unique and pretty costumes. The music was by Baldwin & Rehfeld's orchestra. After the unmasking hour everyone danced and until one o'clock the merriment was kept up.

For Government Service
The U. S. Civil Service Commission will hold examinations at several places in each state during March and April, to secure young men and women for the government service. 9,889 persons secured positions last year through these examinations. Probably 10,000 appointments will be made this year. All appointments are for life and for most positions only a common school education is required. Salaries at appointment vary from \$600 to \$1,200 a year with liberal promotions afterward. Politics is not considered. This affords a good opportunity for people between 16 and 45 years of age.

McDANIELS & ACHTERBERG

Mrs. Annie McKay, Chaplain Sons of Temperance, 326 Spadina Ave., Toronto, Cured of Severe Female Troubles by Lydia E. Pinkham's Vegetable Compound.

"DEAR MRS. PINKHAM:—Being a mother of five children I have had experience with the general troubles of my sex. I was lacerated when one of my children was born and from that hour I date all my afflictions. I found that within a few months my health was impaired, I had female weakness and serious inflammation and frequent flooding. I became weak and dizzy but kept on my feet, dragging through my work without life or pleasure. A neighbor who had been helped by taking Lydia E. Pinkham's Vegetable Compound insisted that I take at least one bottle. I did so and felt so much better that I kept on the treatment. For seven months I used the Compound faithfully and gladly do I say it, health and strength are mine once more. I know how to value it now when it was so nearly lost, and I appreciate how great a debt I owe you. The few dollars I spent for the medicine cannot begin to pay what it was worth to me. Yours very truly, MRS. ANNA MCKAY, Chaplain Sons of Temperance."

\$5000 FORFEIT IF THE ABOVE LETTER IS NOT GENUINE.

No other female medicine in the world has received such widespread and unqualified endorsement. Refuse all substitutes. Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health. Address, Lynn, Mass.

Dr. Frank W. Porterfield of Atlantic, Iowa, who was elected grand chancellor of Iowa at the last session of the grand lodge, is still a young man and a firm and consistent upholder of the principles on which the order is based. He is fearless for the right and possesses the ability and business qualities necessary to successfully administer the affairs of the grand domain of Iowa, in which he has long been a potent factor. Previous to his election as grand chancellor he was a member of the grand tribunal and has served with fidelity and zeal in many offices of trust in the order.

The total assets of the order in Indiana are \$1,014,730.

In all parts of the supreme domain the work of the order is being carried on with greater energy than ever.

The supreme general fund statement for October is as follows: Balance on hand, \$622,440; receipts, \$11,060,75; expenses, \$2,797,455; balance Nov. 1, \$8,887.

Massachusetts lodges are very busy this fall, and new members are being initiated in nearly all parts of the grand domain.

In Missouri the payment of sick benefits is optional with the subordinate lodge.

UNITED WORKMEN.

An Old Leader Again Donns Harness, Chips From the Workshop.

Past Supreme Master Workman Tate, who is now pastor of the leading Presbyterian church of Denver, has taken the field for the A. O. U. W. in the jurisdiction for a month. We congratulate Colorado on having secured his services even for a month. As an orator Brother Tate can awaken more enthusiasm than almost any other member of the order.—Overseer.

Safety should be the first object of a man in seeking protection for his family. It is cheaper to pay a proper price in a safe organization than to take the chances in a cheap one of dying before the institution itself.

A fraternal exchange remarks that the deputy is as indispensable to the fraternal order as the travelling salesman to a business concern.

The Degree of Honor in Missouri is leaving nothing undone that tends to growth and prosperity.

The only other way that has ever been discovered by which a society can be perpetuated into the years when its death rate is high is by increasing the rate from year to year or from period to period as life advances until the cost is as high as can safely be charged.

The board of great chiefs of Pennsylvania are keeping up a series of official visits to the various subordinate tribes in the jurisdiction with the hope of maintaining the enthusiasm and widespread activity now manifest in the fraternity.

The degree team of Wichita tribe of Buffalo is famous for the excellence of its work.

Wapella tribe of Pennsylvania during the last six moons has admitted forty palefaces and now has thirty propositions on its books awaiting the performance of the adoption ceremony.

Great Prophet John Orr is now a member of assembly of the Empire State, as is also Great Junior Sagamore Qlin T. Nye.

World's Fair Fraternal Building.

The fraternal building to be erected on the grounds of the Louisiana Purchase exposition, St. Louis, 1903, has been endorsed by the national fraternal congress, the associated fraternities of America and by the membership of the societies composing those bodies. It is confidently expected that the building will be the greatest monument to fraternity that the world has ever seen. The World's fair directors have assigned it a fine location, and the design of the structure practically reproduces the famous Parthenon. The purposes of the building are to furnish members of fraternal societies with a meeting place which will be equipped with reading and resting rooms, an infirmary where sick or disabled visitors may receive temporary free medical and surgical aid and in general to promote the comfort of fraternal visitors to the World's fair, all of which will be without charge.

Knights of Honor.
The order is in splendid financial condition and is paying death claims with the greatest promptness.

Supreme Deputy Hart is planning to initiate 500 candidates from the lodges of Greater New York on Jan. 6.

Lodges in all parts of the country are waking up to the fact that new life is being injected into the order and that if they do not keep up with the band wagon they will get left.
